

Welcome Message

On behalf of the esteemed board members of the Mediterranean Academy of Forensics Sciences (nMAFS), it's an honor to invite you all to attend our upcoming 6th (nMAFS) Annual conference titled "Forensics Coming Home: Innovations and Best Practices".

The Conference marks a rare event of our field, and that is to bring forensics back to the land of its true origins, where the foundations of forensics sciences are and have been for thousands of years, here in Egypt, the birthplace of sciences and civilizations.

In addition, the conference is also destined to offer futuristic views of new domains, and to cover a wide array of topics regarding the most recent advances in forensic sciences, forensic medicine, and toxicology.

As the president of the (nMAFS) and the conference, I invite you to our (nMAFS 2014), held on March 08th to 10th 2014 in Egypt, in order to exchange our scientific views and share knowledge in forensics. We look forward to welcome you there.

About the Conference:

The Host Country EGYPT

Egypt has always been attracting travelers, dating back over 10 centuries ago to the time of the Mamluks. Egypt, the beautiful, hectic, crowded, surprising, enhancing Country of Africa is one of the largest countries in the continent & offers many sites to visit such as the Giza pyramid complex and its Great Sphinx constructed by its ancient civilization, which was one of the most powerful of its time. Its ancient ruins, such as those of Memphis, Thebes, Karnak, and the Valley of the Kings outside Luxor, are a significant focus of archaeological study and popular interest from around the world in addition to red sea attractions & coastal cities.

In a country as lively as Egypt, with diversity, cultural legacy & good-hearted people who are always willing to help, you will never run out of things to do.

LANGUAGE

The official language of the Conference will be English. All abstract submissions and

Participating Societies:

International Association Of Forensics Sciences

Inaugurated in 1957, the International Association of Forensic Sciences (IAFS) is the only worldwide Association to bring together academics and practicing professionals of various disciplines in forensic science. They include Forensic Pathologists, scientists, and those involved in forensic psychiatry, physical anthropology, medical law and bioethics, forensic odontology, forensic scientific research, etc. It aims to develop forensic sciences, to assist forensic scientists and others to exchange scientific and technical information, and to organize triennial meetings.

Arab Union Of Forensic Medicine and Toxicology

The Arab Union of Forensic Medicine & Toxicology (AUFT) is a scientific body associated with the Federation of Arab Doctors, and is committed to its Statutes and its internal systems. The union is based in Cairo, Egypt. It aims to strengthen the bonds of fellowship and brotherhood among the members in various Arab countries, to facilitate exchange of information and research among members, to solve problems related to forensic science and clinical toxicology within the region, to contribute to the global scientific activity, and to encourage young researchers and doctors in the field of forensic science and clinical and analytical toxicology.
